

**Welcome to the 11th
International CIRC Meeting
in Bologna / Italy
dtd. 25th-26th October 2019**

What is CIRC?

Abbreviation for

Center of Interdisciplinary Research on Compression

CIRC is an independant Research Institute for Compression among other companies supported by medi

CIRC was founded in 2010 in Innsbruck / Austria

The Scientific Director of CIRC is Dr. Attilio Cavezzi, supported by Prof. Hugo Partsch.

Dr. Attilio Cavezzi

Prof. Hugo Partsch

The philosophy of CIRC is to bring together specialists and opinion leaders in phlebology, lymphology, vascular surgery, dermatologists, orthopaedic surgeons etc. in order to exchange interdisciplinary research on compression.

CIRC would like to

- arrange clinical trials and studies on compression
- establish interdisciplinary working groups, e.g.
 - oedema reduction by compression
 - new therapy concepts for the treatment of venous leg ulcers and lymphoedema
- develop ideas for innovative compression products and new therapy concepts
- discuss which trials and studies are requested to optimize in the future compression therapy
- exchange interdisciplinary research on compression
- arrange international expert meetings

International CIRC Meetings 2010 – 2019

1st International CIRC Meeting: 13th-14th October 2010 in Istanbul / Turkey

2nd International CIRC Meeting: 18th-19th November 2010 in Vienna / Austria

3rd International CIRC Meeting: 14th October 2011 in Prague / Czech Republic

4th International CIRC Meeting: 27th June 2012 in Florence / Italy

5th International CIRC Meeting: 10th September 2013 in Boston / USA

6th International CIRC Meeting: 12th May 2014 in Maastricht/The Netherlands

7th International CIRC Meeting: 11th June 2015 in Melk / Austria

8th International CIRC Meeting: 22nd October 2016 in Bolzano / Italy

9th International CIRC Meeting: 21st October 2017 at Chiemsee / Germany

10th International CIRC Meeting: 13th October 2018 in Mallorca / Spain

11th International CIRC Meeting: 25th-26th October 2019 in Bologna / Italy

Compression and Inflammation

Friday October 25th

16:00 Get-together and registration at congress hotel

16:30 - 18:00 Hands-on Workshop:
**Pressure measurements under Velcro devices:
The needs of the future and current available study data**
Moderators: *Els Brouwer (The Netherlands) & Attilio Cavezzi (Italy)*
Trainers: *Hugo Partsch (Austria), Giovanni Mosti (Italy),
Marcelo Liberato (Brazil), Giorgio Bergamo (Italy)*

20:30 Dinner

Saturday October 26th

8:00 Registration

8:45 Welcome: *Hugo Partsch (Austria) & Uwe Meyer (Germany)*

9:00 Introduction: CIRC and the "new" translational and epigenetic medicine
Attilio Cavazzi (Italy)

9:15 **1st scientific Session**
Chairman: Giovanni Mosti (Italy)

9:15 Venolymphatic diseases and inflammation
Ferdinando Mannello (Italy)

9:30 Compression stockings influence inflammatory biomarkers:
outcomes of a standing stress test
Christopher Lattimer (UK)

9:45 Leg lipodermatosclerosis tissue changes with and without stockings: results
from a clinical trial
Marina Berezko (Russia)

10:00 Discussion - Discussant *Alessandro Bianchi (Italy)*

10:30 **2nd scientific session**
Chairman: Tomasz Urbank (Poland)

10:30 Compression in post-varicosis treatment inflammation
Giovanni Mosti (Italy)

10:45 Superficial vein thrombophlebitis and compression
Jean-Patrick Benigni (France)

11:00 Post-sclerotherapy inflammation: what's the influence of
compression
Eduardo DaMatta (Brazil)

11:15 Discussion - Discussant *Alfred Obermayer (Austria)*

11:30 Coffee

CIRC

12:00 **3rd scientific session**

Chairman: Attilio Cavezzi (Italy)

12:00 Anti-inflammatory action of sport stockings:

Freddy Brown (UK)

12:15 Compression with adjustable velcro wraps in the inflammatory state of venous ulcer: rationale and personal data

Marcelo Liberato (Brazil)

12:30 Leg venous symptoms and inflammation: role of compression

Enric Roche (Spain)

12:45 Discussion - *Discussant Sarah Onida (UK)*

13:15 Lunch

14:15 **4th scientific session**

Chairman: Jean-Patrick Benigni (France)

14:15 Is compression improving vein symptoms through inflammation regulation?

Igor Zolotukhin (Russia)

14:30 Compression therapy in skin immune diseases:

Karin van der Wegen (The Netherlands)

14:45 Compression in inflammatory complications of lymphedema

Franz-Josef Schingale (Germany)

15:00 Inflammation/Edema in diabetic foot: a possible target for compression therapy?

Alberto Piaggini (Italy)

15:15 Influence of compression in reducing inflammation in PTS

Tomasz Urbanek (Poland)

15:30 Discussion - *Discussant Kirsten van Duinen (The Netherlands)*

16:00 Coffee

16:30 **5th scientific session**

16:30 *Chairman: Thomas Noppensy (Germany)*

Deep vein thrombosis and inflammation, microcirculation, influence of compression

Takashi Yamaki (Japan)

16:45 Compression stockings in post-sclerotherapy inflammation

Stefan Guggenbichler (Germany)

17:00 Inflammation in Lipedema

Gyozo Szolnoky (Hungary)

17:15 Compression therapy in post-trauma inflammation and edema

Sergio Giannesini (Italy)

17:30 Discussion - *Discussant Dimitri Lihov (Russia)*

17:45 Closing remarks

Uwe Meyer (Germany) & Attilio Cavezzi (Italy)

20:30 Dinner
