Compression Therapy: back to the future

December 11th, 2021

1st session Chairmen: Attilio Cavezzi (Italy) & Eberhard Rabe (Germany)

- 14.00 Introduction
Attilio Cavezzi (Italy), Hugo Partsch (Austria) and Uwe Meyer (Germany)
- 14.12 Ilio-caval primary or secondary obstruction/occlusion: any role for lower limb compression stockings?
Huang Sheng (China)
- 14.24 Does compression slow down varicose vein disease?
Mo Makoto (Japan)
- 14.36 Literature data and personal experience about compression in Lipedema
Gyozo Szolnoky (Hungary)
- 14.48 Optimal pressure of compression in lymphedema
Sergio Giancesini (Italy)
- 15.00 Discussion

2nd session Chairmen: Giovanni Mosti (Italy) & Nick Morrison (USA)

- 15.20 Physics of compression
Claude Franceschi (France)
- 15.32 Diabetes and Peripheral arterial obliterating disease: from contraindications to indications for compression therapy
Giovanni Mosti (Italy)
- 15.44 Compression stockings vs. bandage after varicose vein treatment
Dmitry Lishov (Russia)
- 15.56 Pelvic Congestion Syndrome and compression: any clue?
Cezary Szary, Tomasz Grzela, Justyna Wilczko (Poland)
- 16.08 Adjustable compression wraps in venous ulcers
Joe Caprini (USA)
- 16.20 Discussion
- 16.40 Closure remarks
Attilio Cavezzi and Uwe Meyer
